

Episode 8: Opioids and Alcohol in Pregnancy: Part 2

What passes on to the baby if a mother drinks alcohol or takes opioids during her pregnancy? Are there underlying reasons that could affect the child? Sarah Obican, MD, a maternal-fetal high-risk pregnancy subspecialist from MotherToBaby's Florida affiliate at the University of South Florida in Tampa continues the second part of this important conversation with host Chris Stallman, CGC. Together, they answer one caller's questions about a possible adoption that may have been exposed to alcohol and opioids.

Episode 8: Opioids and Alcohol in Pregnancy: Part 2

Can some alcohol be ok during a woman's pregnancy? Has it been researched well? What about opioid use in a birth mom if one is considering an adoption? Will the baby born have problems? Sarah Obican, MD, a maternal-fetal high-risk pregnancy subspecialist from MotherToBaby's Florida affiliate at the University of South Florida in Tampa joins host Chris Stallman, a certified genetic counselor and mom. Together, they answer one caller's questions about a possible adoption that may have been exposed to alcohol and opioids.

Episode 8: Opioids and Alcohol in Pregnancy: Part 2

Now that marijuana is legal in many states, pregnant women are asking, is it ok to consume during pregnancy? How about breastfeeding? MotherToBaby Podcast host Chris Stallman, a certified genetic counselor and mother, takes questions from moms around the country about the known safety of marijuana products during pregnancy and while breastfeeding. World-renowned epidemiologist Christina Chambers, PhD, MPH, a University of California San Diego professor whose groundbreaking marijuana in breastmilk study recently made international headlines, joins Chris to provide evidence-based answers.
