

Ep. 73: Chlorine, Sunscreen, Mosquitos and Pregnancy

Kirstie Perrotta, MPH, and Angela Messer, MS, join host Chris Stallman, CGC in this special “summer grab bag” of topics related to common summer activities during pregnancy and breastfeeding. Our guest experts talk about everything from chlorine and sunscreen to Zika.

Kirstie Perrotta, MPH, is an information specialist at MotherToBaby California, where she provides counseling by phone and chat. She received her Masters in Public Health (MPH) from the University of San Francisco, and has worked in the field of reproductive health for over 9 years. Kirstie currently serves as a member of the MotherToBaby Emerging Issues Task Force (EITF). Her interests include vaccines, infectious disease, and mental health during pregnancy.

Angela Messer, MS, is an information specialist with MotherToBaby California. She earned her undergraduate degree in psychology from Chapman University and her graduate degree from Kansas State University in academic advising/counseling. Angela has been with MotherToBaby since 2009, with experience in both research and counseling. She appreciates the opportunity to speak with people who are pregnant and/or breastfeeding and healthcare professionals regarding exposures and medications, and holds a special interest in stress and anxiety in pregnancy and breastfeeding.
