

# Retirement of the MotherToBaby App

---

With the launch of our new, mobile-friendly website in October 2020, we have decided to retire or “sunset” the MotherToBaby App for both iOS and Android. By February 28, 2021, the MotherToBaby App will no longer be available for download from Apple’s App Store or from the Google Play Store.

If you are a current MotherToBaby App User:

The app is no longer being supported or updated, so we highly recommend deleting it from all of your devices.

## How Do I Prepare for the Change?

Bookmark our website, [MotherToBaby.org](https://www.MotherToBaby.org), and add it to the home screen on your mobile device now! Everything you previously accessed on the app is now available on our mobile-friendly website.

## Explore Our Website

Here are some quick links to our most popular content, which had previously been accessible from our app:

**Fact Sheets:** Access our library of fact sheets on 250+ exposures and how they may impact pregnancy or breastfeeding.

**Pregnancy Studies:** Get information on our observational pregnancy studies and forms that pregnant women can use to join a study or healthcare providers can use to refer patients to our studies.

**Ask An Expert an Exposure Question:** Reach out to a MotherToBaby specialist by phone, text, email, or chat to ask questions about an exposure during pregnancy or breastfeeding.

**Refer A Patient to our Information Service and/or Pregnancy Studies:** Healthcare providers can use this form to refer their patients either to our pregnancy studies or one of our specialists for pregnancy/lactation exposure information.

**Baby Blog:** Access our library of blogs, which cover a wide variety of pregnancy and breastfeeding exposure topics written by our experts specifically for moms and moms-to-be.

**Podcast:** Tune in for lively discussions about managing exposure risks and staying healthy with our podcast host and MotherToBaby information specialist Chris Stallman.

## Our Website Offers Enhanced Mobile Experiences

Our new website also provides overview pages for pregnant women with hand-selected resources on select exposure topics and offers **healthcare providers** custom-curated information that is specific to their field of practice. This means that all of our website users can now find relevant information while on-the-go!

The responsive design provide a seamless experience for website users to interact with our services and navigate our resources. We've also created an **interactive map** of MotherToBaby's coverage to encourage users to find their local affiliate and connect with the team that is working to reduce the chance of preventable birth defects in our communities.

If you have any questions or would like help with information, please contact us at 866.626.6847 or click the Live Chat window in the bottom corner of your screen.

**Questions? Call 866.626.6847 | Text 855.999.3525 | Email or Chat at [MotherToBaby.org](https://www.MotherToBaby.org).**
