

Should my patient take this medication if she's pregnant?

Visit us at Booth 1674 to find out more!

Don't let your patients search for safety information about medications on their own during pregnancy! Our experts work with neurologists across the US and Canada to provide evidence-based information so you can make the best treatment decisions.

Who is MotherToBaby?

MotherToBaby, a service of the non-profit Organization of Teratology Information Specialists (OTIS), is dedicated to providing evidence-based information to mothers, healthcare professionals and the general public about medications and other exposures during pregnancy and while breastfeeding.

MotherToBaby affiliates support and contribute to worldwide initiatives for teratology education and research. MotherToBaby Pregnancy Studies are conducted by OTIS and coordinated by the University of California, San Diego.

Speak with us about how MotherToBaby
can support you & your pregnant patients.

Disclaimer: MotherToBaby Fact Sheets are meant for general information purposes and should not replace the advice of your health care provider. MotherToBaby is a service of the non-profit Organization of Teratology Information Specialists (OTIS). *OTIS/MotherToBaby encourages inclusive and person-centered language. While our name still contains a reference to mothers, we are updating our resources with more inclusive terms. Use of the term mother or maternal refers to a person who is pregnant. Use of the term father or paternal refers to a person who contributes sperm.* Copyright by OTIS, April 19, 2018.
