

# Help Moms With Psoriasis

---

## Volunteer for research to improve the health of moms and babies.

MotherToBaby is currently enrolling pregnant women in an observational study to understand how psoriasis and its treatment affect pregnancy. **All studies are conducted through phone interviews—no changes to your normal routine or travel required. If you've taken or are currently taking Tremfya® (guselkumab) and are pregnant, you may qualify for this important study.**

*"There is a huge need to generate more information for all of the drugs that pregnant women need to take."*

— Christina Chambers, PhD, MPH, MotherToBaby Pregnancy Studies

Make an impact on psoriasis research by enrolling into our pregnancy study!

Disclaimer: MotherToBaby Fact Sheets are meant for general information purposes and should not replace the advice of your health care provider. MotherToBaby is a service of the non-profit Organization of Teratology Information Specialists (OTIS). OTIS/MotherToBaby encourages inclusive and person-centered language. While our name still contains a reference to mothers, we are updating our resources with more inclusive terms. Use of the term mother or maternal refers to a person who is pregnant. Use of the term father or paternal refers to a person who contributes sperm. Copyright by OTIS, July 10, 2019.
