Zika in 2026: Lessons from the Past and the Current State of Research and Risk

Dr. Miguel del Campo Casanelles is a pediatric clinical geneticist and Head of Medical Genetics at Vall d'Hebron University Hospital in Barcelona. This webinar reviews what we've learned since the height of the Zika epidemic, current research, and how to guide patients in a changing risk landscape.

Dr. del Campo is a Board-certified in Clinical Genetics by the American Board of Medical Genetics, he trained in pediatrics and neonatology and completed advanced fellowship training in clinical genetics and dysmorphology at the University of California, San Diego. He brings extensive international experience in congenital malformations, prenatal diagnosis, and multidisciplinary genetic care.
