Information and Education Resources for you & your patients

MotherToBaby provides FREE evidence-based information on the safety of medications and other exposures during pregnancy and breastfeeding.

WE CAN HELP WITH QUESTIONS REGARDING

- prescription & OTC medications
- maternal medical conditions
- vitamins & supplements
- infections & vaccines
- chemical exposures
- alcohol & recreational drugs
- and more...

MotherToBaby is a suggested resource by the CDC and the FDA Office of Women's Health

Request Office Materials

- Brochures
- Flyers
- Posters

Access FREE Patient Services

- Personalized information from a Teratogen Specialist
- Online fact sheets on common exposures

A huge part of MotherToBaby is observational research; to do this we depend on women sharing their experience. We put it all together and disseminate the information to health care providers and their patients so that together they can make evidence-based decisions about the best treatment in pregnancy.

—**Christina Chambers, PhD, MPH**
Professor, University of California San Diego School of Medicine;
Principal Investigator, MotherToBaby Pregnancy Studies

Observational Pregnancy Studies

Help us find answers to how medications affect pregnancy

PATIENT PARTICIPATION INVOLVES

- One to four phone interviews during pregnancy with at least one interview after delivery
- Releasing medical records for their pregnancy and for their baby up to 5 years of age
- May involve a free specialized pediatric exam and neurodevelopmental testing for their child
- No travel or changes to medication use or healthcare routine

IBD Treatments during Pregnancy

Are you treating an IBD patient who is pregnant or planning a pregnancy?

MotherToBaby Pregnancy Studies is currently conducting observational research studies for pregnant women diagnosed with Crohn's disease and/or ulcerative colitis.

You can contribute to the greater understanding of inflammatory bowel diseases (IBD) and their treatments during pregnancy.

Refer your patients today!

Help us **find answers** on how **inflammatory bowel diseases** and their treatments affect **pregnancy** outcome.

PATIENT PARTICIPATION INVOLVES:

- One to three phone interviews during pregnancy with at least one interview after delivery
- Releasing medical records for their pregnancy and for their baby up to five years of age
- An opportunity to receive a free specialized pediatric exam and neurodevelopmental testing for their child
- No travel or changes to healthcare routine are required
